Profile

Statistical Analyst with over 5 years of experience in research and academia, specializing in agricultural and aquaculture data analytics. Currently working at ICAR-CIBA, Chennai, with prior experience as an Assistant Professor. Proficient in statistical modeling, simulation techniques, time series analysis, and geospatial risk assessment using tools like R, Python, and SPSS. Demonstrated ability to lead research projects, develop analytical tools, and effectively communicate complex data insights to diverse audiences.

Skills

Software: R, Python, SPSS, MS Office, LaTeX

Development Tools: RStudio, Visual Studio Code, Jupyter Notebook, Antigravity

Statistical Expertise: Simulation Models, Risk/Vulnerability Assessment, Time Series Analysis, Geospatial Analysis, Experimental Designs, Machine learning and Deep learning Models

Education

Tamil Nadu Agricultural University

2018-2020

M.Sc Agricultural Statistics (OGPA: 8.5)

Coimbatore

Kumaraguru Institute of Agriculture

2014-2018

B.Sc Agriculture (OGPA: 8.0)

Erode

Experience

ICAR-CIBA, Chennai

Mar 2025 - Present

Senior Research Fellow

- Developed a CNN model and an integrated web application for real-time K+ detection to optimize shrimp growth conditions.
- Developed ML models for shrimp disease prediction using culture and climate variables.
- Conducted aquaculture meta-analysis across shrimp, freshwater, and biofloc systems.

ICAR-CIBA, Chennai

Feb 2022 - Feb 2025

Project Associate

- Conducted risk and vulnerability analysis for coastal districts using statistical and geospatial techniques.
- Built shrimp growth simulation models using weather and water quality inputs ([ciba.res.in/shrimpsim/](#)).
- Performed time series trend analysis on long-term climate data related to aquaculture.

JKKM College of Agricultural Sciences, Erode

Mar 2021 - Jan 2022

Assistant Professor

- Taught undergraduate courses in agricultural statistics and mathematics.
- Academic activities included mentoring students and exam coordinator.

Publications

- Statistical evaluation of growth models for area, production, and productivity of tapioca. *Int. J. of Agriculture Sciences*
- Spatial and temporal variations of tapioca. *Int. J. of Statistics and Applied Mathematics*
- Does abiotic stress influence the white fecal disease incidence and its intensity in *Penaeus vannamei* shrimp farms? *Aquaculture International*

Conferences

- Outlier Detection for Wholesale Price Index of Onion in India. *Emerging Trends in Statistics and Data Science Conference*
- Trends in surface weather parameters of coastal India and implications for brackishwater aquaculture. *XVI Agricultural Science Congress*
- Machine Learning approach for shrimp disease prediction using culture and climate parameters. *12th Symposium on Diseases in Asian Aquaculture*

Languages

Tamil (Native),
English (Professional proficiency)
